SOUNDPROOF COVERAGE

SOUNDPROOF COVERAGE

Location

Casalecchio di Reno, Italy

Client

Autostrade per l'Italia

Contractor

Salvatore Matarrese S.p.A.

Scope of work

Design, fabrication and installation of steel structures

Period of execution

2011

Weight

155 tons

Noise-absorbing coverage on the top of the “Corva” artificial tunnel, built to reduce at the minimum the noise pollution arriving from the enlargement of the A14 highway.

The structure has a total length of 98 meters and it is divided into 38-metre trusses in steel angle, positioned approximately every 3.5 meters. It has been preassembled on the ground and then painted with an intumescent cycle, until the final nose launching.
